Details

The procedures used by the Nexus include three systems of participation. These systems are subject to admin review, used to determine progress with additional member benefits and may be recorded.

The systems are *Engage*, *Inspiration* and *Learning*. These systems are outlined as follows with distinctive characteristics.

Engage
Engage in arguments, conversations and discussions.

> ***Issues***
> Informally discuss on content, project or issue.
>
> ***Dialogue***
> *Free-form Argumentation*
> Engage someone in an argumentative conversation. It must address the question provided.
>
> Time Allowed: Approx. 3 days
> 1 Question

Inspiration
Inspiration is about collaborative project work that includes research, experimentation, design, visualisation, modelling and simulation.

> ***Projects***
> Collaborate and present tangible material on content, project or issue.
>
> ***Formal Assignment***
> *Data-oriented Experimentation* | *Visual Composition* | *Ideation*
> Experiment with data, compose visually and ideate on specific project issues. Included are three questions, requiring research, design and presentation.
>
> Time Allowed: Approx. 2 weeks
> 3 Questions

Learning
Learning includes workshops, courses and interactions with one another member.

> ***Quizzes***
> Answer questions on content, project or issue.
>
> S***elective Intelligence Venture***
> *Problem-solving Rigour* | *Venturous Themes*
> Solve problems in the context of 45 questions, requiring skills in critical thinking, abstract reasoning and so on. A variety of question types includes yes or no, multiple-choice, short answer, ordering and paragraph answer.
>
> Time Allowed: Approx. 1 hour
> 45 Questions
